

Parents:

All kids entering 7th grade must have the **Meningococcal** vaccine **AND** a **Tdap** booster.

Without them they can't start school.

Getting the Vaccines:

- ◆ Call your vaccine provider to ask if your child still needs these vaccines
- ◆ **Bring an updated Iowa Certificate of Immunization from your provider to your child's school**

About Meningococcal Disease:

- ◆ It causes bacterial meningitis and other serious diseases
- ◆ It comes on quickly and without warning
- ◆ Every case of this disease can result in death or long-term disability
- ◆ Teens and young adults are at greater risk

Immunization is Protection
